Speech recognition designed for location-independent productivity and efficiency

SpeechReport Mobile empowers healthcare professionals with the flexibility to work conveniently from any location. This comprehensive app facilitates effortless dictation, editing, authorisation, and distribution of documents, enabling users to be productive wherever they go. Its intuitive design and seamless integration with **SpeechReport** our end-to-end workflow management platform ensures professionals can access and manage their work anytime, anywhere, resulting in faster and more efficient document turnaround times.

KEY FEATURES

All-in-one convenience

Dictation, editing, authorisation, and distribution of documents in one comprehensive app.

Edit in sign-off

Ability to make crucial last-minute corrections, ensuring patient files are always up-to-date and accurate, before authorisation.

Seamless integration

Integration with **SpeechReport** enhances the entire documentation process, ensuring effortless access to essential tools and resources from any location.

SpeechReport Mobile

PRODUCT FEATURES & BENEFITS:

- Dictation, authorisation, and distribution of documents anytime, anywhere
- Edit and add instructions to any dictation

- Overview of sent documents with delivery status
- Configurable document views
- Supports iOS and Android devices
- Quickly switch between contexts and environments when working across hospitals and clinics
- Seamless integration with **SpeechReport**
- Compatible with both tablets and mobile devices

Boost productivity. Providing seamless accessibility whilst on the go

SpeechReport Mobile seamlessly integrates with **SpeechReport**, our document management platform. This platform automates document creation, editing, and management - consolidating all document creation tasks into one centralised hub.

SpeechReport is powered by **Atlas**, our advanced speech recognition platform that integrates Voice AI, relying on cutting-edge Neural Networks and Deep Learning technologies. **Atlas** delivers unparalleled accuracy and reliability in speech recognition. The platform seamlessly accommodates specialised medical terms and dialects, ensuring optimal recognition without the need for training. Atlas easily adjusts to voice nuances, accents, and speech variations, minimising disruptions, and external influences.

Secure patient data protection

Secure data encryption throughout the dictation, editing, and distribution processes.

Faster document turnaround times

Synced with the **SpeechReport** platform, **SpeechReport Mobile** supports faster document turnaround times.

Premium support

Seamless product integration and implementation backed by outstanding after-sales support.
